## **SUPREME PEAKPERFORMANCE**

A highly palatable textured feed formulated with **EXTRUDED PELLETS** for enhanced feed efficiency, greater nutrient utilization, and maximum performance.

### **The Benefits of Supreme Peak Performance**

- Fixed formulas reduce the chance of a digestive upset.
- Added fat- Increased level of fat provides increased calories (energy) per pound. This decreases the amount of grain necessary in the diet and reduces the incidence of colic and founder due to grain overload.
- Guaranteed L-Lysine level provides essential Amino Acid for protein utilization.
- Guaranteed Biotin and Methionine.
- Guaranteed levels of Vitamin E.
- Contains Chelated trace minerals to improve mineral utilization for sound bone development, improved hoof, hair and reproduction in mares.
  
- Increased stress resistance.
- Contains Yeast cultures and Probiotics for improved digestion.

### **FEEDING DIRECTIONS:**

Amounts of Peak Performance will vary with the work intensity of the horses. Vary daily intake amount to match the level of activity. Feed a minimum of 5 lbs. per day (for a 1000 lb. horse) during light training and up to 12 lbs. per day during intense training. A minimum of 1% of body weight per day of good quality hay or pasture equivalent.
