

FIBRENERGY®

INCORPORATING

TECHNOLOGY®

OPTIMUM COMPETITION NUTRITION

- Show Jumping
- Hunters
- Eventing
- Endurance

Fibrenergy® is a super premium, fully fortified, textured sweet feed formulated for competition horses. Manufactured with optimum levels of soluble fibers and oils, Fibrenergy provides a significant boost in energy over conventional sweet feeds.

Soluble fiber from beet pulp and soy hulls, combined with oil, provides long lasting energy release and controlled performance. Fibrenergy also includes the highest quality chopped North American Timothy and Alfalfa. Fibrenergy is highly palatable, ideal for horses that require high energy levels but reduced protein. It's a calorie dense, "non-heating" feed perfect for horses that are difficult to handle or mentally too "high".

Fibrenergy is fortified with Stamm 30®, the industry's most highly valued equine protein, vitamin and mineral supplement. Stamm 30 supplies high levels of bioavailable microminerals, bioavailable magnesium, a proprietary blend of equine specific yeasts, a natural source of the antioxidant vitamin E and bioavailable selenium.

Feeding Instructions

Feed at the rate of 6-18 pounds per day depending on the intensity of the work, size and body condition of the horse. No additional proteins, vitamins or mineral supplements are required, if fed as directed. Always provide a clean, fresh source of water and high quality hay.

NUTRIENT ANALYSIS

Protein	12%
Digestible Energy	1450 kcal/lb
Fat	12%
Fiber	20%
Calcium	.85%
Phosphorus	.55%
Zinc	120 ppm
Copper	43 ppm
Vitamin A	7,000 IU/lb
Vitamin D	900 IU/lb
Vitamin E	100 IU/lb
Magnesium	.25%
Selenium	.3 ppm
